University of Colorado, Boulder

SUMMARY

Dynamic software engineer with exceptional critical thinking and collaboration skills. Cross-functional communication and creative problem-solving drive my passion for designing, building, and maintaining beautiful, responsive software.

EXPERIENCE

CONTRACT SOFTWARE ENGINEER   April 2024 - Present

Light Studios | Denver, CO

- Worked with clients to develop a web presence for small businesses.
- Built intuitive, easy-to-navigate, and aesthetically pleasing UI with Next.js.

FRONTEND SOFTWARE ENGINEER   Oct 2021 - Jan 2024

Leaflink | NY, NY

- Developed interfaces using Vue.js and TypeScript for internal and external users, allowing for management and visibility into LeafLink's Payments portal.
- Integrated and maintained third-party tools to bug-fix, monitor, and enhance user experience, i.e., FullStory, AppCues, and Delighted SDK.
- Contributed UX/UI designs to internal style library for reusability across apps.
- Participated in Agile development processes including daily stand-ups, sprint planning, and retrospectives, working closely with product, design, and QA.
- Wrote unit and integration tests to validate code functionality and prevent regression errors, maintaining 80%+ test coverage.
- Contributed to winning team for company-wide Replatforming Hackathon, providing Observability into payment processes to identify targets for increased efficiency.

SOFTWARE ENGINEER INTERN   Summer 2021

Rocket Software | Denver, CO

- Collaborated via scrum methodologies on an agile development team in 4 different time zones.
- Engineered UI components for MultiValue Database performance & monitoring dashboard.
- Escalated ticket to decrease build time for UI, resulting in increased productivity by 28%.
